

CONVENIQ

modular micromarket

M²DERN EXPO

In the modern world, the use of innovative technologies is an essential condition for increasing profitability and competitiveness.

Changing consumer habits and **the shortage of qualified employees** are key challenges that require effective solutions to ensure the stable development of business.

According to research by Fortune Business Insights, the global market for self-service solutions has reached nearly **6 billion USD**.

Is it possible to combine the most effective autonomous solutions in one device? Yes!

CONVENIQ is a self-service micromarket that ensures rapid scaling of your business with minimal staff involvement.
